

OUR TEAM

Our mission is to help children and Youth to develop their interests, knowledge, skills and friendships based on Christian values. We are inspired by Italian priest St. John Bosco, who is remembered as a man who dedicated his life to the service of abandoned young people.

Our objective is to offer children and young people from Havířov and local area such leisure activities that motivate them to spend their free time meaningfully. We try to eliminate social barriers - our services can be used only for 50czk (2 euros) per school year.

With this approach we are able to offer friendly place for children and Youth from disadvantaged backgrounds. Don Bosco center is run by a team of experienced professional teachers.

We have four centers in Havířov city where children and youth can find fun, joy, develop their skills, get new knowledge and find new friends.

Don Bosco Havířov
– it's a chance for everyone
